## PROFILE

I am a B.Com (Honours) in Strategic Finance student pursuing internship opportunities in **Equity Research, Investment Banking, and Corporate Finance**. Built an integrated three-statement DCF valuation model and a DuPont-based financial statement analysis, translating raw financials into actionable investment recommendations. Proficient in Excel-based financial modelling, ratio analysis, and portfolio benchmarking against the NIFTY 50 — most recently applied through Meredian, a self-built equity research platform.

## EDUCATION

**Jain Deemed-to-be University, Bengaluru**

2025 – Present

Bachelor of Commerce (Honours), Strategic Finance | Cumulative GPA: 7.4

Relevant Coursework: Corporate Finance, Financial Accounting, Business Economics, Investment Analysis

## PROJECTS

### Meredian – AI-Assisted Equity Research Platform

Live Demo: <https://meredian-equityanalyzer.lovable.app>

- Designed and built a web-based equity analysis platform delivering company research, valuation insights, and financial data visualization for retail investors
- Owned end-to-end product direction — architecture, feature design, UI/UX workflow, testing, and deployment — using AI-assisted development tools to accelerate build velocity while directing every design and product decision

### Equity Valuation – Infosys Ltd. (Three-Statement DCF Model)

- Built an integrated three-statement financial model (Income Statement, Balance Sheet, Cash Flow Statement) for Infosys (NSE), dynamically linking statements to drive an assumption-based DCF valuation
- Modelled scenario and sensitivity analysis across 6–10% revenue growth, 10% WACC, and 4% terminal growth assumptions, estimating intrinsic value of ₹1,319 (vs. ₹1,297 market price, ~1.7% variance) with a fair value range of ₹1,200–₹1,500

### Financial Statement Analysis – Wipro Ltd.

- Analysed FY21–FY23 financials via DuPont decomposition, identifying 29% ROE driven by an 18% net margin and conservative 0.09x D/E leverage (current ratio: 2.4x)
- Benchmarked ratios against IT sector averages; synthesized findings into a structured investment memo with a Hold recommendation supported by margin-trend and balance-sheet analysis

## SKILLS

**Financial:** Financial Modelling, Three-Statement Modelling, DCF Valuation, Scenario & Sensitivity Analysis, Financial Statement Analysis, Ratio Analysis, Equity Research, Investment Analysis, Forecasting, Risk Assessment

**Technical:** Microsoft Excel (Sensitivity Analysis, Data Visualization), Basic Python

## EXTRACURRICULARS / POSITIONS OF RESPONSIBILITY

### Business Development Team, SAMARTHYA 2026 – Placement & Internship Forum (SCAPS), Jain University 2025 – Present

- Sourced and cold-outreached finance companies for Jain's first-ever intra-college internship fair — 60 companies, ~1,000 student attendees across 2 days
- Managed on-spot registration and floor coordination throughout the event

**2nd Runner-Up – Jain University Entrepreneurship Week:** Recognized for entrepreneurial pitching and business strategy at the annual university-wide competition
